

## THE BIG IDEA

Since the beginning of mankind, we have been living in endless competition. It's always about being faster, better, stronger. And today it's about becoming #1 on a gaming server!

Imagine that 1.4 Bn players are registered in just Top 10 competitive titles, and eight of them are team-based games like Counter-Strike, League of Legends, Dota2 and Overwatch, all played 5x5 or 6x6. But while it's easy to have fun playing solo, it becomes really tough for players who want to form a team and start an amateur career.

But how would you look for a job without recruitment websites or grow a company with no management tools? Or just picture communicating without e-mail and hiring staff without CVs... Sounds unrealistic? Well, that's the reality for 250M players who want to build, grow and manage their teams!

With the unlocking of blockchain & smart contract technologies we have a unique opportunity to provide an all-in-one solution and build a multi-billion dollar economy on one platform. Introducing DreamTeam – the first e-sports and gaming recruitment and management network!

## DREAMTEAM.GG

### THE FIRST ESPORTS AND GAMING RECRUITMENT AND MANAGEMENT NETWORK
